PRESTON, PAIGNTON.

14 Decr! 1945

My dear Theo, and Nellie,

As we fear our letter by ordinary mail may not reach you in time, we are sending a short line by air mail to convey our best wishes to you all for Christmas and New Year. I hope the coming year will show some real progress to more settled conditions everywhere. but cannot say I feel very hopeful.

We have had quite exceptionally good weather so far this winter. November was the driest for 100 years, and it was a treat to be spared the usual muggy November weather. We had a few days very heavy rain in

letter head of October, and it has
rained Lewis nearly all to-day.

I hope you are all keeping well.

With love and affectionate wishes
from us both to you all

Yours affectionate brother
Arthur
